

PATENT**Application # 10/042,142****Attorney Docket # 2000-0672 (1014-199)****REMARKS**

The Examiner is respectfully thanked for the consideration provided to this application. Reconsideration of this application is respectfully requested in light of the following remarks.

Claims 1-91 are now pending in this application. Each of claims 1, 18, 32, 49, 62, and 80 are in independent form. Claims 62-79 have been withdrawn.

The Restriction Requirement

In response to paragraph 1 of the Restriction Requirement, Group I, claims 1-61 and 80-91 are elected. Each of these elections is made with traverse.

As an initial matter, it is respectfully submitted that 35 U.S.C 121 is only applicable if two or more independent **and** distinct inventions are claimed in one application. A *prima facie* showing of both requirements, and particularly the independence requirement, has not been made. For example, a relationship has been disclosed between the subject matter of each of the presented claims.

Also, it is respectfully submitted that certain embodiments of the claims are capable of use together, and that the various alleged species contain several common features such that there would not be a substantial burden in searching all of the alleged species concurrently.
